

Simplify your workflow with e-Filing

ArkCase's e-Filing Solution modernizes legal operations by digitizing and automating the filing and management of legal proceedings, documents, and deadlines. With our intuitive and user-friendly interface, submitting your documents has never been easier or more reliable.

360 Degree View of Filing

- A single docketing, e-Filing and case monitoring platform in the cloud at your fingertips.
- By leveraging the cloud with ArkCase, you

Immediate Notifications

- Receive document alerts any time updates are made to a published docket.

Worry-Free Compliance

- Whether it's an electronic or paper filing, PDF or Word format, ArkCase provides a fully compliant platform to meet your requirements.

Improve Business Processes

- With streamlined access to filings and dockets 24/7, processing filings has never been easier. Decrease average filing time, better distribute the workload and significantly reduce errors.

User Accessibility

- Seamlessly create new filings, file to existing cases and upload documents easily accessed from within the cloud.
- Protect access to sensitive materials by granting access to only specified individuals.
- Designate individuals to submit filings on your behalf.
- Our e-Filing Portal delivers an intuitive platform that makes it a simple and smooth process to submit and access filings.

Dynamic Insights

- Customize and create reports from analytics right on the e-Dockets platform.
